SUPPLIER CODE OF CONDUCT

Airsafe Sweden AB is committed to the principles of sustainable development and social accountability. We have therefore created this Supplier Code of Conduct to clarify the requirements our suppliers must comply with when doing business with us.

Requirements;

- Follow all applicable international, EU, regional, and local environment, work environment, labour and trade legislation
- Minimize resource usage and usage of hazardous substances
- Phase out hazardous substances in products and operations where possible
- Minimize waste and have a waste management programme in place
- Prevention of pollution through control of processes and used hazardous substances
- Recruitments of new employees being based on skills, abilities and experience
- Create a work environment free from discrimination, harassment and bullying, where all employees are treated with dignity and respect
- Respect the right of employees to freely associate and bargain collectively
- Provide a safe and healthy working environment
- Not tolerate either child or forced labour
- Conduct all business in an honest and ethical manner not tolerating either bribery or corruption
